

Woodland Wanderers!

For children ages 2-5
with an adult

In this 6-week program children and their caregivers have the opportunity to explore their natural surroundings together. Through short hikes, stories, and activities children will learn about owls and bald eagles and what is so special about these birds, especially at this time of year.

Winter is also a great time to look for various animal signs; we will explore the grounds looking for tracks and scat to see what animals are busy at the Arboretum at this time of year. Space is limited so register early!

Tuesdays, 2/16—3/23
10am—11am or 1pm—2pm

COST: \$50/members
\$75/nonmembers

Afternoon Adventures!

For children ages 6-8

Afternoon Adventure workshops at Reeves-Reed Arboretum are designed to educate young children about nature in a fun and exciting way. Each week we will learn about a new topic through stories, crafts, activities and hikes. Although winter is a quiet time here at the

Arboretum, many animals are still busy working to stay warm in this cold weather. We will explore the grounds in search of signs of the animals still active this time of year. We will also learn about the animals that chose to sleep these cold long months away. Wintertime is also a time when owls become very active. We will learn about these nocturnal friends and other wintering birds. Space is limited so register early!

Tuesdays 2/16—3/23 4:00p-5:30p

COST: \$90/members
\$105/nonmembers

Environmental Action Club

For children ages 9-12

Environmental Action Club is for children who want to take their love of nature to the next level. These budding young naturalists will take an in-depth look into various environmental issues and come to understand the relationship between animals and their environment. During this 6-week class we will discuss both plant and animal adaptations and how the adaptation helps the animal or plant survive in its ever-changing environment.

Wednesdays 2/17—3/24
4:00p-5:30p

COST: \$90/members
\$105/nonmembers
